

Nebraska State Treasury

"Everfi's resources and materials are paramount in assisting educators and reaching students. The curricular components are engaging and make it fun for students to learn. With the Financial Literacy requirement, Everfi's financial literacy resources help boost educators if they haven't taught it before. It aligns with the state standards and integrates well. This is an invaluable resource to educators and we have been fortunate to have it available at no cost."

Mary Janssen, Business, Marketing and Management Career Field Specialist
